

Senior Resource Specialist Report
Martin Curry
October 21, 2026

Monthly update

- ✓ Little Laramie River Stream bank work
 - Within the southeast corner of the state section near Millbrook Lane the Little Laramie has some stream banks that are being undercut and causing increase sediment in the stream. WGFD brought this to our attention last year. Late summer LRCD, WGFD, has met with the lessee and WWC Engineering to discuss ideas to address these concerns. LRCD is planning on submitting a Wyoming Water Development Commission Small Water Project application due November 15th for this project. As well as a Wyoming Wildlife Natural Resource Trust application in early 2027.
- ✓ Wyoming Water Development Office Small Water Projects
 - Horse Creek Cattle Company: New well, 2 livestock tanks and approximately 1,500 feet of HDPE pipe that will feed two pastures
 - Monaghan Ranch: Windmill to solar conversion, 4 livestock tanks and approximately 3,100 feet of HDPE pipe that will feed three pastures
- ✓ Rural Cost Share program
 - Carson and Anna Anderson application for spring development within approximately 500 acres pasture

Miscellaneous

- Worked with 5 volunteers from the “Big Event” at LaBonte Garden. This year they applied boiled linseed oil to the garden boxes that had not be stained.
- County subdivision review comments.
- Ranch Advisory Committee work session to discuss conservation easements on the city own ranches.
- Traveled to Gering, NE to pick up 20 wildlife escape ramps.
