Staff comments: I met with Ray Garson and tour the projects being discussed. Both springs were flowing, by replacing the rusted-out tanks with tire tanks and some minor replumbing, these livestock watering systems will again benefit the livestock as well as the local wildlife and provide adequate clean water for all.

The cross fence will provide more efficient grazing management (BMP).

Public benefit: ☒ conservation of natural resources ☒ protection or enhancement of wildlife habitat
☐ beautification of public space ☐ promotion of health/safety of citizens
☒ protection of the tax base
